# Brief Contents

## Part One Principles and Concepts 1

|   |   |     |
|---|---|-----|
| 1 | Introducing Economic Development: A Global Perspective  | 2   |
| 2 | Comparative Economic Development                        | 40  |
| 3 | Classic Theories of Economic Growth and Development     | 118 |
| 4 | Contemporary Models of Development and Underdevelopment | 164 |

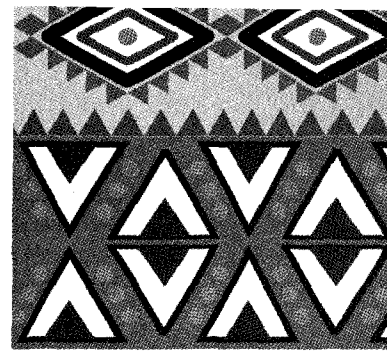

## Part Two Problems and Policies: Domestic 215

|    |   |     |
|----|---|-----|
| 5  | Poverty, Inequality, and Development  | 216 |
| 6  | Population Growth and Economic Development: Causes, Consequences, and Controversies | 284 |
| 7  | Urbanization and Rural-Urban Migration: Theory and Policy                           | 330 |
| 8  | Human Capital: Education and Health in Economic Development                         | 382 |
| 9  | Agricultural Transformation and Rural Development                                   | 437 |
| 10 | The Environment and Development   | 490 |
| 11 | Development Policymaking and the Roles of Market, State, and Civil Society          | 541 |

## Part Three Problems and Policies: International and Macro 599

|    |   |     |
|----|---|-----|
| 12 | International Trade Theory and Development Strategy                             | 600 |
| 13 | Balance of Payments, Debt, Financial Crises, and Stabilization Policies         | 678 |
| 14 | Foreign Finance, Investment, Aid, and Conflict: Controversies and Opportunities | 731 |
| 15 | Finance and Fiscal Policy for Development                                       | 781 |

## Part One Principles and Concepts 1

|          |   |           |
|----------|---|-----------|
| <b>1</b> | <b>Introducing Economic Development: A Global Perspective</b>                           | <b>2</b>  |
|          | <b>Prologue: An Extraordinary Moment</b>  | <b>2</b>  |
|          | <b>1.1 How the Other Half Live</b>  | <b>4</b>  |
|          | <b>1.2 Economics and Development Studies</b>  | <b>9</b>  |
|          | The Nature of Development Economics   | 9         |
|          | Why Study Development Economics? Some Critical Questions                                | 11        |
|          | The Important Role of Values in Development Economics                                   | 14        |
|          | Economies as Social Systems: The Need to Go Beyond Simple Economics                     | 15        |
|          | <b>1.3 What Do We Mean by Development?</b>  | <b>16</b> |
|          | Traditional Economic Measures   | 16        |
|          | The New Economic View of Development  | 17        |
|          | Amartya Sen's "Capability" Approach   | 18        |
|          | Development and Happiness   | 21        |
|          | Three Core Values of Development  | 22        |
|          | The Central Role of Women   | 24        |
|          | The Three Objectives of Development   | 24        |
|          | <b>1.4 The Future of the Millennium Development Goals</b>                               | <b>24</b> |
|          | <b>1.5 Conclusions</b>  | <b>28</b> |
|          | ■ <b>Case Study 1: Progress in the Struggle for More Meaningful Development: Brazil</b> | <b>30</b> |
| <b>2</b> | <b>Comparative Economic Development</b>   | <b>40</b> |
|          | <b>2.1 Defining the Developing World</b>  | <b>42</b> |
|          | <b>2.2 Basic Indicators of Development: Real Income, Health, and Education</b>          | <b>45</b> |
|          | Purchasing Power Parity   | 45        |
|          | Indicators of Health and Education  | 49        |
|          | <b>2.3 Holistic Measures of Living Levels and Capabilities</b>                          | <b>51</b> |
|          | The New Human Development Index   | 51        |
|          | <b>2.4 Characteristics of the Developing World: Diversity within Commonality</b>        | <b>55</b> |
|          | Lower Levels of Living and Productivity   | 57        |
|          | Lower Levels of Human Capital   | 59        |
|          | Higher Levels of Inequality and Absolute Poverty  | 60        |
|          | Higher Population Growth Rates  | 63        |

|   |            |
|---|------------|
| Greater Social Fractionalization  | 64         |
| Larger Rural Populations but Rapid Rural-to-Urban Migration                                       | 65         |
| Lower Levels of Industrialization and Manufactured Exports  | 66         |
| Adverse Geography   | 67         |
| Underdeveloped Markets  | 69         |
| Lingering Colonial Impacts and Unequal International Relations                                    | 70         |
| <b>2.5 How Low-Income Countries Today Differ from Developed Countries in Their Earlier Stages</b> | <b>73</b>  |
| Physical and Human Resource Endowments  | 74         |
| Relative Levels of Per Capita Income and GDP  | 75         |
| Climatic Differences  | 75         |
| Population Size, Distribution, and Growth   | 75         |
| The Historical Role of International Migration  | 76         |
| The Growth Stimulus of International Trade  | 78         |
| Basic Scientific and Technological Research and Development Capabilities                          | 79         |
| Efficacy of Domestic Institutions   | 79         |
| <b>2.6 Are Living Standards of Developing and Developed Nations Converging?</b>                   | <b>80</b>  |
| <b>2.7 Long-Run Causes of Comparative Development</b>   | <b>85</b>  |
| <b>2.8 Concluding Observations</b>  | <b>93</b>  |
| ■ <b>Case Study 2: Comparative Economic Development: Pakistan and Bangladesh</b>                  | <b>96</b>  |
| <b>Appendix 2.1 The Traditional Human Development Index (HDI)</b>                                 | <b>112</b> |
| <b>3 Classic Theories of Economic Growth and Development</b>                                      | <b>118</b> |
| <b>3.1 Classic Theories of Economic Development: Four Approaches</b>                              | <b>119</b> |
| <b>3.2 Development as Growth and the Linear-Stages Theories</b>                                   | <b>119</b> |
| Rostow's Stages of Growth   | 120        |
| The Harrod-Domar Growth Model   | 121        |
| Obstacles and Constraints   | 123        |
| Necessary versus Sufficient Conditions: Some Criticisms of the Stages Model                       | 123        |
| <b>3.3 Structural-Change Models</b>   | <b>124</b> |
| The Lewis Theory of Economic Development  | 124        |
| Structural Change and Patterns of Development   | 129        |
| Conclusions and Implications  | 130        |
| <b>3.4 The International-Dependence Revolution</b>  | <b>131</b> |
| The Neocolonial Dependence Model  | 131        |
| The False-Paradigm Model  | 133        |
| The Dualistic-Development Thesis  | 133        |
| Conclusions and Implications  | 134        |
| <b>3.5 The Neoclassical Counterrevolution: Market Fundamentalism</b>                              | <b>135</b> |
| Challenging the Statist Model: Free Markets, Public Choice, and Market-Friendly Approaches        | 135        |
| Traditional Neoclassical Growth Theory  | 137        |
| Conclusions and Implications  | 139        |
| <b>3.6 Classic Theories of Development: Reconciling the Differences</b>                           | <b>140</b> |
| ■ <b>Case Study 3: Schools of Thought in Context: South Korea and Argentina</b>                   | <b>142</b> |
| <b>Appendix 3.1 Components of Economic Growth</b>   | <b>149</b> |
| <b>Appendix 3.2 The Solow Neoclassical Growth Model</b>   | <b>155</b> |
| <b>Appendix 3.3 Endogenous Growth Theory</b>  | <b>159</b> |

|   |            |
|---|------------|
| <b>4 Contemporary Models of Development and Underdevelopment</b>  | <b>164</b> |
| 4.1 Underdevelopment as a Coordination Failure                    | 165        |
| 4.2 Multiple Equilibria: A Diagrammatic Approach                  | 168        |
| 4.3 Starting Economic Development: The Big Push                   | 174        |
| The Big Push: A Graphical Model                                   | 176        |
| Other Cases in Which a Big Push May Be Necessary                  | 181        |
| Why the Problem Cannot Be Solved by a Super-Entrepreneur          | 182        |
| 4.4 Further Problems of Multiple Equilibria                       | 183        |
| Inefficient Advantages of Incumbency                              | 183        |
| Behavior and Norms  | 184        |
| Linkages  | 185        |
| Inequality, Multiple Equilibria, and Growth                       | 186        |
| 4.5 Michael Kremer's O-Ring Theory of Economic Development        | 187        |
| The O-Ring Model  | 187        |
| Implications of the O-Ring Theory                                 | 190        |
| 4.6 Economic Development as Self-Discovery                        | 192        |
| 4.7 The Hausmann-Rodrik-Velasco Growth Diagnostics Framework      | 193        |
| 4.8 Conclusions   | 197        |
| ■ <b>Case Study 4: Understanding a Development Miracle: China</b> | <b>200</b> |

## Part Two Problems and Policies: Domestic 215

|  |            |
|--|------------|
| <b>5 Poverty, Inequality, and Development</b>                              | <b>216</b> |
| 5.1 Measuring Inequality   | 218        |
| Size Distributions   | 218        |
| Lorenz Curves  | 220        |
| Gini Coefficients and Aggregate Measures of Inequality                     | 222        |
| Functional Distributions   | 224        |
| The Ahluwalia-Chenery Welfare Index (ACWI)                                 | 225        |
| 5.2 Measuring Absolute Poverty   | 226        |
| Income Poverty   | 226        |
| 5.3 Poverty, Inequality, and Social Welfare                                | 230        |
| What's So Bad about Extreme Inequality?                                    | 230        |
| Dualistic Development and Shifting Lorenz Curves: Some Stylized Typologies | 232        |
| Kuznets's Inverted-U Hypothesis  | 235        |
| Growth and Inequality  | 239        |
| 5.4 Absolute Poverty: Extent and Magnitude                                 | 240        |
| The Multidimensional Poverty Index (MPI)                                   | 242        |
| Growth and Poverty   | 248        |
| 5.5 Economic Characteristics of High-Poverty Groups                        | 250        |
| Rural Poverty  | 250        |
| Women and Poverty  | 251        |
| Ethnic Minorities, Indigenous Populations, and Poverty                     | 255        |

|  |            |
|--|------------|
| <b>5.6 Policy Options on Income Inequality and Poverty: Some Basic Considerations</b>                | <b>256</b> |
| Areas of Intervention  | 256        |
| Altering the Functional Distribution of Income through Relative Factor Prices                        | 257        |
| Modifying the Size Distribution through Increasing Assets of the Poor                                | 258        |
| Progressive Income and Wealth Taxes  | 260        |
| Direct Transfer Payments and the Public Provision of Goods and Services                              | 260        |
| <b>5.7 Summary and Conclusions: The Need for a Package of Policies</b>                               | <b>262</b> |
| ■ <b>Case Study 5:</b> Institutions, Inequality, and Incomes: Ghana and Côte d'Ivoire                | <b>264</b> |
| <b>Appendix 5.1</b> Appropriate Technology and Employment Generation: The Price Incentive Model      | <b>272</b> |
| <b>Appendix 5.2</b> The Ahluwalia-Chenery Welfare Index  | <b>275</b> |
| <br>   |            |
| <b>6 Population Growth and Economic Development: Causes, Consequences, and Controversies</b>         | <b>284</b> |
| <b>6.1 The Basic Issue: Population Growth and the Quality of Life</b>                                | <b>284</b> |
| <b>6.2 Population Growth: Past, Present, and Future</b>  | <b>285</b> |
| World Population Growth throughout History   | 285        |
| Structure of the World's Population  | 287        |
| The Hidden Momentum of Population Growth   | 291        |
| <b>6.3 The Demographic Transition</b>  | <b>293</b> |
| <b>6.4 The Causes of High Fertility in Developing Countries: The Malthusian and Household Models</b> | <b>296</b> |
| The Malthusian Population Trap   | 296        |
| Criticisms of the Malthusian Model   | 301        |
| The Microeconomic Household Theory of Fertility  | 303        |
| The Demand for Children in Developing Countries  | 305        |
| Implications for Development and Fertility   | 306        |
| <b>6.5 The Consequences of High Fertility: Some Conflicting Perspectives</b>                         | <b>307</b> |
| It's Not a Real Problem  | 308        |
| It's a Deliberately Contrived False Issue  | 309        |
| It's a Desirable Phenomenon  | 309        |
| It <i>Is</i> a Real Problem  | 311        |
| Goals and Objectives: Toward a Consensus   | 314        |
| <b>6.6 Some Policy Approaches</b>  | <b>315</b> |
| What Developing Countries Can Do   | 316        |
| What the Developed Countries Can Do  | 318        |
| How Developed Countries Can Help Developing Countries with Their Population Programs                 | 319        |
| ■ <b>Case Study 6:</b> Population, Poverty, and Development: China and India                         | <b>321</b> |
| <br>   |            |
| <b>7 Urbanization and Rural-Urban Migration: Theory and Policy</b>                                   | <b>330</b> |
| <b>7.1 Urbanization: Trends and Living Conditions</b>  | <b>331</b> |
| <b>7.2 The Role of Cities</b>  | <b>339</b> |
| Industrial Districts   | 339        |
| Efficient Urban Scale  | 343        |
| <b>7.3 The Urban Giantism Problem</b>  | <b>344</b> |
| First-City Bias  | 345        |
| Causes of Urban Giantism   | 346        |

|   |            |
|---|------------|
| <b>7.4 The Urban Informal Sector</b>  | <b>348</b> |
| Policies for the Urban Informal Sector  | 350        |
| Women in the Informal Sector  | 354        |
| <b>7.5 Migration and Development</b>  | <b>355</b> |
| <b>7.6 Toward an Economic Theory of Rural-Urban Migration</b>   | <b>357</b> |
| A Verbal Description of the Todaro Model  | 358        |
| A Diagrammatic Presentation   | 360        |
| Five Policy Implications  | 362        |
| <b>7.7 Conclusion: A Comprehensive Urbanization, Migration, and Employment Strategy</b>   | <b>365</b> |
| ■ <b>Case Study 7: Rural-Urban Migration and Urbanization in Developing Countries: India and Botswana</b>                         | <b>369</b> |
| <b>Appendix 7.1 A Mathematical Formulation of the Todaro Migration Model</b>  | <b>375</b> |
| <br>  |            |
| <b>8 Human Capital: Education and Health in Economic Development</b>  | <b>382</b> |
| <b>8.1 The Central Roles of Education and Health</b>  | <b>382</b> |
| Education and Health as Joint Investments for Development   | 384        |
| Improving Health and Education: Why Increasing Income Is Not Sufficient   | 385        |
| <b>8.2 Investing in Education and Health: The Human Capital Approach</b>  | <b>388</b> |
| <b>8.3 Child Labor</b>  | <b>391</b> |
| <b>8.4 The Gender Gap: Discrimination in Education and Health</b>   | <b>396</b> |
| Education and Gender  | 396        |
| Health and Gender   | 398        |
| Consequences of Gender Bias in Health and Education   | 399        |
| <b>8.5 Educational Systems and Development</b>  | <b>401</b> |
| The Political Economy of Educational Supply and Demand: The Relationship between Employment Opportunities and Educational Demands | 401        |
| Social versus Private Benefits and Costs  | 403        |
| Distribution of Education   | 404        |
| <b>8.6 Health Measurement and Disease Burden</b>  | <b>406</b> |
| HIV/AIDS  | 412        |
| Malaria   | 415        |
| Parasitic Worms and Other "Neglected Tropical Diseases"   | 418        |
| <b>8.7 Health, Productivity, and Policy</b>   | <b>420</b> |
| Productivity  | 420        |
| Health Systems Policy   | 422        |
| ■ <b>Case Study 8: Pathways Out of Poverty: Progresa/Oportunidades in Mexico</b>  | <b>425</b> |
| <br>  |            |
| <b>9 Agricultural Transformation and Rural Development</b>  | <b>437</b> |
| <b>9.1 The Imperative of Agricultural Progress and Rural Development</b>  | <b>437</b> |
| <b>9.2 Agricultural Growth: Past Progress and Current Challenges</b>  | <b>440</b> |
| Trends in Agricultural Productivity   | 440        |
| Market Failures and the Need for Government Policy  | 446        |
| <b>9.3 The Structure of Agrarian Systems in the Developing World</b>  | <b>448</b> |
| Three Systems of Agriculture  | 448        |
| Traditional and Peasant Agriculture in Latin America, Asia, and Africa  | 449        |

|  |            |
|--|------------|
| Agrarian Patterns in Latin America: Progress and Remaining Poverty Challenges                | 451        |
| Transforming Economies: Problems of Fragmentation and Subdivision of Peasant Land in Asia    | 453        |
| Subsistence Agriculture and Extensive Cultivation in Africa                                  | 456        |
| <b>9.4 The Important Role of Women</b>   | <b>458</b> |
| <b>9.5 The Microeconomics of Farmer Behavior and Agricultural Development</b>                | <b>462</b> |
| The Transition from Traditional Subsistence to Specialized Commercial Farming                | 462        |
| Subsistence Farming: Risk Aversion, Uncertainty, and Survival                                | 462        |
| The Economics of Sharecropping and Interlocking Factor Markets                               | 466        |
| The Transition to Mixed or Diversified Farming   | 468        |
| From Divergence to Specialization: Modern Commercial Farming                                 | 469        |
