**Ulfat. BMAF19BM048**

**Submitted to: Ma'am mahla Jabeen**

**Session: 2019- 2023**

**University: UOS Sub campus Bhakkar**

## **1- Project Title:**

**Stitched dresses for needy**

## **2- Introduction:**

### **a: Background of the problem:**

All over the world ,some people live a very vulnerable life because of poverty.The world Bank Group's goals are to end extreme poverty and promote shared prosperity.This mission underpins all of our analytical,operational and convenieng work in more than 145 client countries .According to most recent estimate ,10 percent of the world population lived on less than \$1.90 a day .

Nearly 39% of Pakistan live under multidimensional poverty .More than a third of Pakistan's population is living below the poverty line. Balochistan ,has the highest poverty rate ,Sindh comes second followed by KPK and then Punjab . According to experts ,poverty is caused by inflation,unequal distribution of resources,lack of facilities , high unemployment and growing population.

### **b: Present Situation:**

Nowadays,the COVID-19 have a disproportionate impact

on the poor through job loss, loss of remittance, rising prices and disruption in services such as education and health center. For many nations, poverty reduction has slowed or even reversed due to COVID-19. The COVID-19 lockdown and restrictions have severely affected low income households in country when those in this category earn on average less than \$2 a day according to world bank .

In Pakistan the government has started the largest and most comprehensive program of providing financial support to the poor and marginalized segments of the society. This is an expression of compassion for the needy . Many agencies are also working to provide the basic facilities to the poor .

### **3- Justification of the project:**

#### **(a) Importance of the project :**

While your daughter twirls and swirls around in her customized fairy frock, do not forget the little girl covered in dirty rags. Most of the people are unable to afford the basic necessities of life like food, clothing and shelter.

Ramzan is just around the corner and the preparation for Eid has already begun. Eid is the Muslim community's most cherished day and it is celebrated with

great zeal and enthusiasm by all Muslims around the world. Various clothing brand have already lounched their eid collection and it is a common sight to see people shopping their hearts out at the exhibition .while you lie today in the comfort of your silk laden bed try to 8imagine the pain of those who sleep in the streets with mere rags on their bodies .while your child goes to the school with prim and proper uniform in pursuit of a bright future try and look at those who cannot afford uniform to all and despite that go to the schools and try to learn while their feet and hands trun numbs because of extreme cold.

Hence,it is a high time that everyone steps out to donate clothes to underprivileged.We will donate clothes on that time of Eid celebration when everyone looks happy in their new and gorgeous dresses besides of poor who wear used clothes at that great occasion just because of poverty.So at this Eid we will give them new dresses to become them full happy and enjoy that great celebration.

**(b) Practical Implications(Who will get benefits of the activity?)**

Our society will be the true benifactory of the project .We have no hidden motives .We are committed to do it because we are blessed in many respects and we want to devote our blessings among the needy .We will serve our

society by putting our energies and resources and utmost efforts to make this happen .Such families of our sourrondigs will get benifits who are unable to buy new dresses for their eid celebration.

#### **4- Objectives of the project:**

We will do that project for the following objectives ;

- (1) good eid celebration of needy
- (2) Help people in need
- (3) Give an ego boost
- (4) Experience more pleasure
- (5) Promote generosity in people

#### **5-Plan of Action:**

**(a) How will you do this project activity?)**

First of all,we will formed a team to obtain our mentioned objectives .Team members will be chosen by their own will not by forced .Then we will identity the needy families.After doing so,we will start our work for activity.For that purpose we will ask our parents ,siblings and cousins to give money .We will also use our pocket

money for that purpose. After collection, we will buy clothes with the help of parents and will stitch them. After packing we will give them to needy families whom we recognized.

### **(b) Needed resources and the source**

**of generation (financial, human resources etc):**

For this activity, we will be requiring our family support. We will invest money to do that activity. And that money will be collected from our families.

### **(c) Each person's role in the project:**

Little drops of water create the large ocean. If everyone has the determination to do so they will make a change to society. To feed the starving, or execute a few heroic acts, you don't have to spend millions of dollars. With little love, minor lifestyle change and a conscientious part of society.

Regardless of where you live in the world, you are the part of society. As members of society, we all have a responsibility to help others and improve the state of the community and the world that we live in. We can do this on both small and large levels. We should pay attention to the people around us and try to find ways to address their needs.

So as a responsible citizen,we will try our best to help our community .Being a student ,we will try to do our efforts for the betterment of society at a small level. For this we observed our nearby people deeply .We observed that how they leave and meet their expenses .We observed some people who are living their lives in very tough condition .They are facing many problems to afford two basic meals of the day .

Hence,our group wish to help them in meeting the clothing needs of them .While your daughter twirls and swirls around in her customized fairy frock ,do not forget the little girl covered in dirty rags .With Eid-ul-Fitr approaching soon ,the shopping for new clothes will yet to begin .Therefore ,it will be a high time that we all join hands to support this course of providing appeared item to the destitute .

### **Tasmia Ghafoor:**

Our group has decided that every member of the group will donate the stitched dresses to 2 families .so ,after given my task ,I observed my nearby people .After observation,I met two such families who are spending their lives in a bitterful condition.They have no proper mean of earning .

The gardian of one family has expired 5 years ago.Now the widow with her 3 children (2 girls one of 10 years old and

other is 12 years old and a boy with 7 years old) is spending her life in a miserable condition. She is trying her best to give her children better education by doing works in others homes .All her children are getting education in government schools .

The other family has the same condition. 3 months ago ,her husband died due to cancer. Now she is the only one who look after her children in such a difficult world .She has two children one girl (3years old) and a boy ( 5 year old ) They are not yet getting education. They also have no resources to meet their expenses.

Both the expired persons were labour men .The people loves around them and their relatives help them but still they are living very difficult life .I will help both families by donating them new stitched dresses for Eid.

For that purpose ,first of all,I will collect money .For collection of money , I will take help from my parents ,sublings and czns .When I will get enough money to buy cloths ,as because of lock down due to COVID-19 ,bazars are closed .There is a small cloth shop in our village .If bazars will not be opened till my project duration then I will buy cloths from this small shop .I will buy 7 suits(2 for boys ,2 for widows and 3 for girls) .After buying the cloths ,I will give them my czn to stitch them .I have already

convince my cousin to stitch cloths without any charges. I will also help my cousin in this regard because I have some idea of stitching. After stitching, I will pack the dresses in plastic bags gently. All this process will be done till 25th of the Ramzan. At 26th and 27th of Ramazan, I will go to their homes to give them dresses for eid .

### **Aneela kainat:**

According to our project, I have to donate new stitched dresses for Eid to 2 families. I will do it honestly, so that my little contribution will make someone happy on such a big occasion of eid .

The first responsibility of me in that project is that I have to found such 2 families which really deserve it . so, I have completed it by the help of my parents. My parents told me about such families who are living tough life.

One family has a house a small distance away from our house . They are 7 family members (mother, , father , 3 girls and 2 boys). Girls are between 7 to 13 years old while boys are between 4 to 8 years old. The father is a rickshaw driver . The mother is a kidney patient . They are always in a tough time but nowadays , because of lockdown due to COVID-19, they are in a very tough situation. They are affording two basic meals difficulty. The other people also help them .

The other family has also tough situation. They are 5 family members (mother ,father,2 girls and a boy ). Boy is 7 years old and girls are between 5 to 11 years old .The father is a disable.3years ago ,his leg was broken in a road accident and he is unable to walk and his cure is still continued.But still he has opened a general Store in his home.so,I have decided to help such 2 families.

For that project ,firstly I will collect money from my pocket money ,from my siblings and from my parents.After enough collection,I will buy 5 ladies dress from bazaar ( 3 for one family girls and 2 for other family ).After it,my sister will sititch them and I will pack them in bags.After the completion of all task ,I with my mother will go to their homes and will give them dresses before eid .

## **Ulfat:**

Acording to our project,I have tasked that I will provide new stitched dresses to 2 families for Eid.such that I will devote my pocket money for human beings.I will do it sincerely.I know that it is not a big contribution.

First of all, I identify 2 deserving families in my surrounding.I completed it by my parents and friends.

One family is so deserving,gardien of this family is a labroure .He has three childrens(2 girls and 1 boy).

He spend very difficult life.Nowadays their life become so difficult due to COVID.I will stitch 3 suites for his childrens so that they enjoy happy life.

other family has in poverty.it consist of four family members ( three children and mother).Her husband died in accident for last three years.After her husband's ,she works other homes to feed her childrens.Now she is infected by heart deseas.

Children's are small and get education in government schools .Many peoples of my village help her.I want that childrens enjoy their life like other childrens.I decide to help them by giving them dresses for Eid.

For that project ,firstly i will collect money from my pocket-money ,parents and brother.Then I willbuy 6 suits from small village shop .After it.i will give my sister to stitch that suits.Then I will packed dresses and give to these 2 families so that their childrens can enjoy the Eid like others.

I will do it for the smile of children.Childrens are just like a flowers of any house.sometimes their personality is damage by social and economic issues.

I hope that you will appreciate us and angage for other projects to make a responsible citizens.

We will do it not because they have no dresses although they drive dresses but we want to look them happy in new dresses on Eid when everyone will wear new dresses and enjoy the celebration.

We know that our project is not large enough but we hope that the joy of children for their new eid dresses will make it large for us and bloom our feelings .

We hope that you will appreciate our project and guide us for its better performance.Thank you!!

**(d)Proposed duration of the project:**

Keeping in mind the gravity of the project ,this project will be done on 27th of Ramzan (inshaallah).

**6- How you evaluate your project for possible outcomes?**

Our project will v evaluated by recognizing the most deserving famalies and by giving and by giving them many fine dresses.

( The End)
