Title: supporting of orphan children in education.

• **Background of project:**

Our project is about the supporting of the orphan children in education. In our society there are many such children who have to work for earning. But some people also help of them. Actually there hole family is unknown about education. They are trying to earn more and more. They do not know the importance of education. But some children who have found to get education. But their family do not agree because they are orphan. Some people fulfill their needs. Like clothes, shopping etc. But they do not pay heed about their education. So our project is about to support them in education. To support them in education is our project.

- **Present situation:**

we all are known about the present situation of covid- 19. In the crises of Corona all the schools and academies or close. So in that crises it's very difficult to support them but we support them. We shall teach them at our homes and after this situation in shaa Allah we shall admitted them in the schools.

- **Importance:**

In the society where the orphan children are not treated as well as other children. Our project is to support these children. In our society people are not well educated. They do not know about the importance of education but they help the needy and poor and orphans in their needs. But they do not concentrate on their education. We shall help them and they will stand on their feet. They can make their future bright. So this project is very important

- **Practical implications:**

Practical implications means that who will get Benefit of our project activity. So it is clear from the project title all the orphans children get benefit of this activity. Because they are living like a labour. It is true that labour are also part of country. They work hard for their family. But the society is updated. Man have to change himself. So when we support them they get great benefit of our project. They can make their future bright.

- **How will we do our project:**

First of all we inspire their family about the education. We aware them about importance of education. we shall say them they can make their future bright and they can help you in your future. Then we shall teach them at our homes. After this we shall say their parents to admitted them in the schools. And for extra

- **Needed resources:**

We will support them to buy their books and bags. And we shall tell them about the importance of books .

We shall use our platform to help them.

We help them to buy their uniforms.

- **Each person's role in project:**

We are five members and we shall work at different places in our streets. But all the members have to follow the instructions given at the present situations. And these instructions will be change about present situations. Every member will teach five students and help the five students in study and in their education. Each person's will work with honestly and give outcomes to the leader. Every member will responsible himself about his work if he will not act upon the instructions if leader.

- **Proposed duration of project:**

We shall try in shaa Allah to continue our project for long duration. Our project will be continue for long time. And in shaa Allah we shall try to continue our project for long time.

- **Proposal submitting date:**
