1) Title of the project

My role to provide education in covid-19 condition

2-Introduction

In an introduction of the project we can tell about it that the project is about only education which is very necessary for people so, we can do it step by step.

2.1) Background of the problems

In a few early months there is no problems about getting education for people. Everyone has its own facility and expenditures for education. Everyone has an ability to pay their school fee and every type of fee. If anyone cannot get education then it is its own problems and no one can solve this.

2.2) Present situation

As everyone know that about covid-19 so in these days, to get education is the serious problems and the solution is not better which is online classes. However, in these days the students wait for learning

or wait for the open education centre, but we well know that the education centre cannot be possible to be open. So, another solution we can make for it.

3-Justification of the project

3.1) Importance of the project

An investment in knowledge always pays the best interest (https://www.pinterest.com/pin/488429522063877447/)

If you want to be powerful, Educate yourself (https://www.pinterest.com/pin/612982199272039116/)

Teachers are **important** in society because they prepare and influence tomorrow's leaders. Every day, students learn **important** lessons about sharing, respect, valuing differences and making ethical decisions (importance of teacher)

- **Proper and good education is very important for all of us.** It **facilitates quality learning all through the life among people of any age group, cast, creed, religion and region.** It is the **process of achieving knowledge, values, skills, beliefs, and moral habits.**

(www.education is the basic need for human.com)

A good **education** makes an individual develop personally, socially as well as economically. **Education** helps us to do our daily **life** activities in the best possible ways. **Education** makes us dutiful. **Education** helps us to acquire new skills and knowledge that will impact our development in **life (www.importance of education for human life.com)**

- Our project will have an importance specially students can get benefit from it.

- Such a student which cannot be effort they can get benefit from it as we can do this only for our obligations.

- Those parents who can worried about its children future they can feel comfort after sending their child to our academy.

- Our project has a time relief package means the student

can get education in present situation and their time cannot be waste in idle talks and on the coming session of class they should be ready to give exams.

3.2) Practical implementation;

As our goal is that give education to the people in covid-19 condition. So, we can make our practical implementation on people with the education.

I with my friend can buy many electronic things which is need in our way to provide education such as laptop, internet devices, and many other things which basic needs in teaching and all of these things we can buy in own pocket and provide them.

4-objective of the project

The main objective of our project is to make children also people educate and also, we can give education in every type which they need

Our second objective is that if we do this project then the students can touch with education and cannot be totally free

5-Plan of action

5.1) How will we do this activity?

Education for All: a Human Right and Basic Need

In our project, we have different activity which we do in this project every member of group do different activity. The genral propose is described below.

In this covid-19 situation we shall educate the people for their awareness and to face problems during these covid-19 days

As the life is very important for everyone so our role is very necessary to safe life of people in these days and keep them unfair able from this fatal virus so this is my first priority and main task to educate the people in this fair able condition. By doing this they may stay home and get education and safe from covid-19 In this regard we have a plan.

In this plan we shall educate them about covid-19 and provide them their own education.

Our plan is given below

1) Organization of Academy.

We shall organize a big academy and it is important task for us or for our plan because big academy is very necessary if we want to educate the people. The main purpose for bigger academy is that to keep a social distance. at the start of our academy we will meet the people and active them to get education also send their children in our academy according to time table which will we setup. We tell us as the life is important for living as education is very necessary for life.

2) Agreement with parents

As we know that mostly parents do not allow them to get education in these days as they are very fair full from covid-19. so, our first duty to energize them to get education. In this regard we will go door to door for agreement to send them in our academy which we setup only them. We will encourage them and their children and tell us the importance of education

3) Providing the Stationary

Some students are financially very poor so that they feel unbearable to keep their study continuous. It is our duty to provide the stationary to it,

In stationary, we can buy many things such as register, clip board, calculator, pens, books, even everything we can buy in own expenditure and distributed it.

4) Environment

In our plan its great feet that we can chose such a place where the student can feel very comfort and pleasure so that they can give all of his attention to study and we can make such lines with a different distance such distance called social distance which is not only necessary for student also for every people even it is old or young or child. So, we can provide a pleasant environment

5) Awareness about Covid-19

In awareness, we can tell him about covid-19 which is

COVID-19 is an infectious disease caused by a newly discovered coronavirus.

Most people who fall sick with COVID-19 will experience mild to moderate symptoms and recover without special treatment

How it spreads

The virus that causes COVID-19 is mainly transmitted through droplets generated when an infected person coughs, sneezes, or exhales. These droplets are too heavy to hang in the air, and quickly fall on floors or surfaces.

You can be infected by breathing in the virus if you are within close proximity of someone who has COVID-19, or by touching a contaminated surface and then your eyes, nose or mouth.

(https://www.google.com/covid19/)

6) How to spend time in home

We can teach them to how they can spend their own time in homes.in this regard we can tell is that they can spend their precious time in such things by getting knowledge on online lecture which is available on YouTube as well as google and many more ways. We can tell of their father to teach him also plays a game but keeping social distance

7) basic education

We will teach them by telling him different websites, and different software we can teach him with laptop by doing practical work such as work on Microsoft, PowerPoint, excel and many more software.

5.2) needed resources and source of generation

Educational resources are the **resources** which are freely accessible, openly licensed text, media and other digital assets which is used for acquiring knowledge, **teaching,** sharing your knowledge, learning as well as for research purposes. It is something which supports the **education. (**www.needed resources and source of generation of education.com)

5.3) each person role in project

Each and every person will play an equally role in this project

Every member of group has its own point of view about getting and giving education so, every person in group will play equally role

5.4) proposed duration of the project

We write this project in this month

And will be completed in soon

6) how will you evaluate your project for possible outcomes?

⭐ IN SHAA ALLAH, we can evaluate our project in such way that the project is 100 completed

⭐ We will fully try to teach the student and another people with the great attention and get good outcomes

⭐ We will help of the poor people, student and blind spot student and an after that we can get best outcomes.

⭐ We can provide many things which is basic needs in education in this regard we will get pleasure.

⭐ we will give all our precious time for students. And after all of that we will also financially help the needy students and people.
