## *Title of project*

### **Supporting of orphan childerns in education**

#### **Work done and doing.**

- First of all, as you know that our project is about to support orphan childerns in education. In this case , every member of our group teach 5 students in his own home.For this purpose every member of our group make their academy in this academy he teaches the students and the pictures of this academys attached with report.
- 2nd we meet the parents of these orphan childerns and ask them t o learn their childerns from us without any fees and charges .And at last the parents of the e childern accept our proposal and they are ready to sand their childern for education from us...
- 3rd in this project we say that we can buy some stationary for those orphan childerns . As we know that they are all orphans and they can not able to buy their study related things. Therefor , we buy these things and distribute between orphan students..

- 4th every member of our group choice such place for teaching which is clean pretty and good for teaching.And all of our group members arrange such timing which cool and batter for learning such as 5pm to 7pm o'clock.
- 5th our group members also distribute some money between these orphans students so that they can buy their household things which are the basic need of ever y person and family such as foods clothes and shoes e.t.c..

- And the last point of our project report is to admit these orphan childrens in different schools after when the disease of Covid-19 is finished and the schools will reopen agai n for learning .we shall also buy bags and clothes for them.every member of our group play a vital role in this project

Message from our group for humanity It is not only my our group duty to educate orphans.it is duty for every person of such society in which these orphan childrens are live.we should help us in each case not only education because we shall answerable for these kind of children s in the day of judgement ..so please every person should help orphans in their bsic needs..
