Practice Exercises for Pen Tool:

1. Draw contours of buildings with pen tool

- Using the PEN TOOL only, trace the outlines and details of the famous buildings. Save the file and name it "Pen Tool Practice 1".

HINTS:

- 1) Start with your first point on the corner of an object.
- 2) Remember to click back on the last point that you made, if it was a curve.
- 3) Draw windows and blank areas separate from the object's shape

Pen Tool Trace Exercise: Using the Pen Tool, use this template to trace the following items. Once you have traced the items, you may add details to them. For example - color, brush strokes or details to the illustration.

Pen Tool Hints: After your first two points - always click back to your last point before continuing your drawing. Also, end your illustration at the first point that you created.

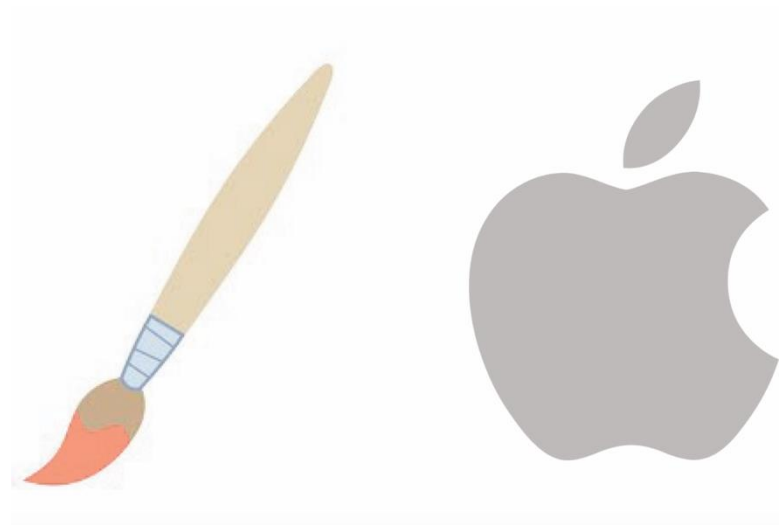

2. Draw contours of Apple Logo and Paint Brush

- Using the PEN TOOL only, trace the outlines and details of the Apple Logo and Paint Brush. Include colors for the paint brush. Save the file and name it "Pen Tool Practice 2".

HINTS:

1) When drawing the paint brush, draw each section of color as a separate shape. This will make filling the shapes with color easier.

*Remember to make complete shapes when using the Pen Tool to make sure the shape fills completely

Must watch tutorials on YouTube and any other portal that you know.

Assessment Criteria:

The final work will be examine through the fine contours and details of shadows and highlights. It will show how much you understand about pen tool and have command on it.
